The **ML**Line of seating products HEADRESTS

MLContour

The ML Conour headrest is our standard headrest as seen on our Supertilt. It includes a headrest mounting bracket, a vertical extension with a horizontal slider that allows for easy height and depth adjustment. Its headrest portion is made of a solid wood base and a foam contour surface covered in a nylon material.

MLMulti-Axis

The ML Multi-Axis headrest is our most versatile headrest. Its unique design allows for an infinite amount of positioning to maximize your clients comfort. It comes with an easy to use, tool-less adjustability clamp, a 90° goose neck vertical extension with ball and a horizontal slider.

MLSwivel

The ML Swivel headrest allows for easy height and depth adjustment but also allows for more finite positioning with it's horizontal slider and ball feature.

- ◆ 1 year warranty on hardware
- ◆ 90 day warranty on cover
